

Find a Provider in Four Easy Steps

To locate participating PHCS providers, visit http://www.multiplan.com/healthscope and click "Search for a Doctor or Facility." Then, follow these four easy steps to identify your providers of choice.

Step 1: Identify Your Network Logo. The network used by your health plan is identified by a logo on your benefits identification card. Toggle between the "Most common logos"

and "Other network logos" tabs to match the logo that most closely resembles the one(s) on your card. You may select only one logo.

Step 2: Provider Type. Choose between Doctor and Facility. Then read and acknowledge the conditions that apply to this online search tool. Note: Ancillary providers (e.g. home health, durable medical equipment, etc. will be searchable under the Facility tab)

If you have matching logos on both the front and back of the card, select the logo(s) on the front.

Finding a Doctor or Facility

Step 3 for Doctors

Step 3: Refine Provider Criteria. You will see one of the two forms shown below, depending on the type of provider chosen. Location is required and must be entered as one of the following combinations: zip code plus distance, city plus state, or county plus state.

Step 3 for Ancillary Providers
