Subject: Anthem Data Breach
Date: Friday, February 06, 2015 9:54:12 AM

This email is being sent to all of the Bookkeepers, Superintendents and Board of Managers we have on file for the Egyptian Trust. If you received this email in error please forward to the appropriate party and contact Krista Gotto (krista.gotto@meritain.com) of Meritain Health to update the contact information.

Dear Employer Group:

Please see the message below from Susan Lehne at Healthlink concerning the Anthem data breach. Should you have any questions please direct them to Susan Lehne at Healthlink. Thank you.

Since the discovery of the issue, we have been working to identify impacted members and groups. Anthem is continuing to investigate the extent of the data breach, and doing everything we can to ensure there is no further vulnerability to our database warehouses. Anthem has contracted with Mandiant – a global company specializing in the investigation and resolution of cyber-attacks. Anthem will work with Mandiant to ensure there are no further vulnerability, identify gaps and strengthen security to all Anthem networks. As a member of HITRUST – a collaboration of health care, business and technology leaders focused on creating a standardized security framework and information sharing system – Anthem also immediately shared the indicators of the compromise with the HITRUST C3 (Cyber Threat Intelligence and incident Coordination Center). The methods and techniques used in the attack against Anthem were immediately shared with other health care organizations, Health and Human Services (HHS) and other federal agencies in an anonymous, sanitized manner via the HITRUST C3, as is standard procedure for members of HITRUST, thus ensuring other organizations in health care could take proactive steps to prevent themselves from also becoming a victim. Such sharing of information is what is needed to stop the continuous onslaught by hackers against healthcare.

We are preparing notifications as required by state and federal regulations to impacted members and self-insured groups.

We are not aware of any fraud that has occurred as a result of this incident against our members, but all impacted members will be enrolled in identify repair services. In addition, impacted members will be provided information on how to enroll in free credit monitoring. Our investigation to date shows no provider or broker information as accessed.

At this time, we do not have a breakdown of impacted consumers by state or business line.

Consumers can find more information at www.anthemfacts.com

Anthem has created a hotline for customers to call for additional information 0-877-263-7995
