Welcome to the Egyptian Area Schools Employee Benefit Trust: Edwards County CUD #1

Do you have a dependent over age 19 more than 50% dependent on you for support and enrolled in one of the Egyptian Trust Health Plans? If so, please read on....

If you have not already done so, now is the time to complete the Dependent Status form and fax to Meritain Health in order to assure continued coverage for your over age 19 dependent who is more than 50% dependent on you for support. Note: this does NOT include those over age 19 dependents who are currently enrolled as Full Time Students.

You may find the form at www.egtrust.org by clicking on "Administrative Forms" and then "Dependent Status Form" or click on the following link: http://www.egtrust.org/Dependent%20Status%20Form_7-09.pdf Please fax the completed form to Meritain Health at 888-525-2799 in order to avoid claim processing or prescription filling delays.

Remember, YOU must tell your Employer when your dependent is no longer a qualified eligible dependent and is to be terminated from the health, dental, or vision plan. NOT returning the over age 19 Dependent form does NOT terminate the dependent's coverage – it only suspends the coverage until we receive either a) the updated form or b) a termination notice from your Employer. When coverage is suspended the appropriate premium continues to be billed to the Employer group. PLEASE be sure to communicate any of your family status changes to your Employer who will be able to provide you with information about how family status changes may affect your benefits. If you're unsure of whether your Employer needs to be notified of a particular change, it is certainly better to touch base with your Bookkeeper or Human Resources Dept. rather than take a chance on missing out on critical information.

11th Annual Bookkeeper/Administration Meetings-SAVE THE DATE!

Once again, Meritain Health will be hosting the 11th Annual Bookkeeper/Administration Meetings. The meetings will be July 27th – July 29th, 2011 in 3 locations in the general vicinity of Effingham, Rend Lake, and Fairview Heights.

In addition to Meritain Health, representatives from Express Scripts/ScripWorld, HealthLink, UniView, Lincoln Financial, and American Fidelity will be present to discuss their individual services and products. In coming days, an invitation will be sent to each of the participating Employers in the Egyptian Trust.

As in the past, the meetings are open to all Bookkeepers, Superintendents, Business Managers, and Human Resources Personnel who wish to learn more about the Trust and the products and services offered by the Egyptian Trust. We look forward to another successful year of participation at these very important meetings.

[A Message from the Trust](#) [Retirement, Medicare and the Egyptian Trust Health Insurance](#)

In the coming weeks Meritain Health will be sending a communication directly to those members who are identified in our enrollment system as a Retired Employee. In addition, Meritain Health will send the communication directly to the Superintendent to be distributed to all employees who may be affected (those who may be retiring this year). The communication will address your health insurance options if you are in one of the following categories:

- Retired Non-Certified Staff (Aides, Cooks, Custodians, Bus Drivers, Secretaries, etc) drawing an IMRF Pension with Egyptian Trust Health Insurance
- Active Non Certified Staff Retiring 2011
- Retired Certified Teachers and Administrators drawing a TRS Pension with Egyptian Trust Health Insurance
- Active Certified Staff Retiring 2011

While all Retired Employees are eligible to remain covered by the Egyptian Trust Health Plan, the intent of the information is to make you aware of all of your options for health insurance coverage.

Those who may decide to change to the TRS plan or Medicare supplement plan may continue to have the voluntary dental and vision insurance plan through the Egyptian Trust if they currently have that coverage. The information that will be provided to you concerning the benefit and premium comparisons is our interpretation and understanding. We strongly recommend that you do your own research by talking with a local insurance agent or using the Medicare web site to make your own comparisons prior to making your decision. Remember - The annual Benefit Choice Period for the TRS health insurance plan is May 1 through May 31, 2011 for those who have already retired. TRS will not notify you of this opportunity to enroll in a TRS health insurance plan. You will need to contact them to request information be sent to you.

Pharmacy Benefit Program Changes Effective January 1, 2011

As a reminder, the Egyptian Trust Board of Managers met on November 8, 2010 and approved a change in the prescription card program **EFFECTIVE JANUARY 1, 2011**. In particular, the program was changed to allow 90 day maintenance prescriptions to be filled at retail pharmacies participating in the Express Scripts Maintenance Drug Network (MDN), in addition to continuing to allow these fills through Home Delivery. The co-pays for those maintenance medications filled at a participating Express Scripts MDN pharmacy will be slightly higher than those filled through Home Delivery (see the chart below). The reason for the change was twofold.

- First, employees in Egyptian Trust member school districts and cooperatives expressed concern at being required to fill their maintenance medications through Home Delivery or pay a double co-pay for a 30 day fill.
- Secondly, local pharmacists expressed concerns about the amount of business they were losing while pointing out that they support their local schools both financially and with time commitments, and also pointing out that they are a resource for the local employee who needs help with their medications and those who have questions. Although projected savings for the Trust's pharmacy benefit program will be somewhat less than what was originally designed, the membership felt it was important to continue to work with and allow retail pharmacies the opportunity to participate within the Express Scripts Maintenance Drug Network (MDN).

The benefit design change that became effective **JANUARY 1, 2011** included:

1. All maintenance medications may be filled on a 90 day basis through Home Delivery or the Express Scripts MDN network of pharmacies. Most of the pharmacies in our communities are already a part of the MDN network. Local pharmacies that are not part of the MDN network will have the opportunity to sign a contract with Express Scripts to join the MDN network. Pharmacies who are not currently contracted under the Express Scripts MDN network can contact the Contracting Department at 866-296-9943 to request a MDN network contract. The MDN pharmacies agree to accept lower reimbursements from Express Scripts in order to participate in the Maintenance Drug Network.
2. Egyptian Trust members will continue to have the option to fill the first two months of a maintenance medication at any local retail pharmacy for the normal 30 day co-pay. After the first two fills of a maintenance medication each fill afterward will be required to be a 90 day fill at either an MDN pharmacy or through Home Delivery. **Please Note: Members will not have the option of buying a 30 day supply of maintenance drugs at any retail pharmacy by paying double the normal 30 day co-pay.** Members can continue to buy up to a 30 day supply of any covered medication that is not a maintenance medication and is not a specialty medication at any retail pharmacy.
3. The co-pay for a 90 day fill at the MDN pharmacy is higher than the Home Delivery co-pay. Past practice by covered employees has seen the vast majority of generic maintenance prescriptions filled on a 30 day basis, indicating members have been paying three normal 30 day prescription co-pays. The proposed 90 day MDN co-pay for generic drugs is the equivalent of three 30 day retail co-pays and is needed to help offset the higher discounts the Trust receives for mail order versus retail fills.

The 90 day co-pay for brand formulary and non-formulary medications is higher at MDN pharmacies than through Home Delivery for the same reason.

The co-pays effective January 1, 2011 are as follows:

Platinum and Gold Plans	Retail 30 day supply	MDN Retail 90 day supply Maintenance drugs after first 2 fills	Home Delivery up to 90 day supply
Generic	\$12	\$36	\$30
Preferred Brand	\$25	\$85	\$55
Non-Preferred Brand	\$40	\$130	\$100
Injectables	Copay plus 3%	Copay plus 3%	Copay plus 3%

Silver and Bronze Plans	Retail 30 day supply (no change)	MDN Retail 90 day supply Maintenance drugs after first 2 fills	Home Delivery up to 90 day supply (no change)
Generic	\$12	\$36	\$30
Preferred Brand	\$30	\$85	\$70
Non-Preferred Brand	\$45	\$130	\$110
Injectables	Copay plus 3%	Copay plus 3%	Copay plus 3%

The following pages list the most commonly used maintenance medications and is subject to change. This list does not guarantee coverage is provided for all of the drugs included on the following list. Please be sure to review your benefits materials or call Express Scripts at 800-451-6245 to see if a particular drug is covered. You may get started with Home Delivery by contacting Express Scripts at 866-841-5482 to speak to a patient care advocate or you may also visit the website at www.starhomedelivery.com. Home Delivery also provides you with the "Bill Me Later" option for your convenience. Refer to pages 7 and 8 of this newsletter to take advantage of the "Bill Me Later" option.

Express Scripts Maintenance Medications

This is not an all-inclusive list of maintenance medications, and it is subject to change at least quarterly or more frequently in Express Scripts' discretion. Not all of the drugs listed are covered by all prescription-drug benefit programs; check your benefit materials and formulary for the specific drugs covered and the copayments for your prescription-drug benefit program. For specific questions about your coverage, please call the phone number printed on your ID card.

For the member: Generic medications contain the same active ingredients as their corresponding brand-name medications, although they may look different in color or shape. They have been FDA-approved under strict standards.

For the physician: Please prescribe preferred products and allow generic substitutions when medically appropriate. Thank you.
